

November 4, 2016

Lauren Federgreen from Rose Real Estate, LLC worked tirelessly to get our deal done. She was presented with many challenges due to our desire to keep our property off the open market. Finding a buyer for a 25% occupied building not on the open market took a lot of effort. Lauren found a uniquely qualified buyer in Sanzari Enterprises. This was a new building that was gaining new tenants every week while in due diligence. To get to closing, Lauren actually set up shop in our office to keep up with the new tenants that were signing on while collecting and organizing all of the information required by the buyer. A lot of brokers do the least and expect the most. Lauren Federgreen went above and beyond to get us to the finish line. This is the second time Lauren has proven herself to me as a broker and I look forward to working with Lauren again.
